## Pre-primary Newsletter – April AY 2024-25

Dear Parents,

Greetings from NPSU!

**“In every child’s smile is the promise of a brighter tomorrow – kindergarten is where the magic begins”**

As we step into a new academic year filled with excitement, curiosity and joy, we are delighted to present our yearly Newsletter. This edition will provide you with a glimpse of your child’s learning journey, classroom activities and joyful moments from the month of June 2024. As we draw curtains on the vibrant academic year 24-25, our hearts are filled with pride, joy and a touch of nostalgia. This year has been a delightful journey of laughter, learning and growth for our tiny tots. From their first hesitant hello to confident goodbyes, we have watched our little kindergarteners’ blossom beautifully each day, adding new colours to their canvas of experiences. Their resilience has reminded us of the magic in every small step. We believe that all children can and want to learn. As educators our goal is to help them to be independent and lifelong learners. We want to develop and maintain an “I can” and “I will try” attitude. This attitude promotes success and happiness. With the eminent leadership of our Principal, Dr Reetu Thapa and dedicated Team of Teachers our National Public School, Uttarahalli has been awarded Rank 1 Top Emerging School for the fourth consecutive year by Times Education Excellence. And we have been doing our best to remain in this top position by adapting to different changes and bringing about innovation in our learning.

Our children had a wonderful kindergarten experience with excitement, fun and a lot of learning. Many important and exciting events happened during the academic year that are worth noting down. We thank you for being a part of all the events conducted in the Pre-primary section. Events help in focusing more on sharing, cooperation and collaboration. We encourage children to share their thoughts and ideas through language enriched activities. Our students' listening, speaking, reading and writing skills have bloomed and reached high, this was evidently reflected in their performances during the Annual Day Celebration 2024-25.

Academic skills are only a part of kindergarten readiness; there are a number of other readiness skills that will give your child a lift in the classroom like cognitive skills, social skills, communicative skills, creative skills etc. We emphasize conceptual understanding rather than rote learning. Our structured curriculum with Read Aloud sessions, Show and Tell, Rhyme and Recitation, Class Assemblies, Library, Dance, Music and Art & Craft helped children in their overall progress.

## CLASS ACTIVITIES

# CLASS ASSEMBLIES

Assemblies in Kindergarten are important for several developmental, educational and social reasons. Introducing different themes makes them even more engaging and impactful. Children learned the ethics and human values like empathy, respect for others, cleanliness, courtesy, spirit of service, respect for public property, and responsibility, through skits and pretend plays that were held during the assemblies.

**Presentations and Demonstrations:** The Math and Language Activity presentation, along with the demonstration of various science experiments held during the academic year 24-25, helped our tiny tots build self-confidence and enhance their overall personality. Little Chef, Tiny Wings and Wiggly Things, Maa & Me and Transport Day are some of the activities that we celebrated during the year 2024-25. Children delve deep into the subject, and speak confidently in public without hesitation, enriching their vocabulary and usage of grammar.

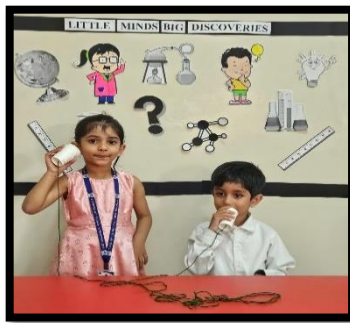

## MATH ACTIVITY

## LANGUAGE ACTIVITY

# LITTLE MINDS BIG DISCOVERIES

# LITTLE CHEFS' DAY

# TINGS WINGS AND WIGGLY THINGS

# MAA & ME

**YOGA DAY**

**FESTIVALS**

**CHRISTMAS CARNIVAL**

**Important Celebrations:** Celebrations like Independence Day, Kannada Rajyostava Day, Annual Day, Sports Day and Kindergarten Graduation Day in the second term brought everyone together as a school team and created a sense of belonging. It made the students feel like they have achieved something significant that has value in the eyes of their family and friends. This facilitated awareness-building among students in an interactive manner while also fostering a sense of teamwork and shared purpose within the school.

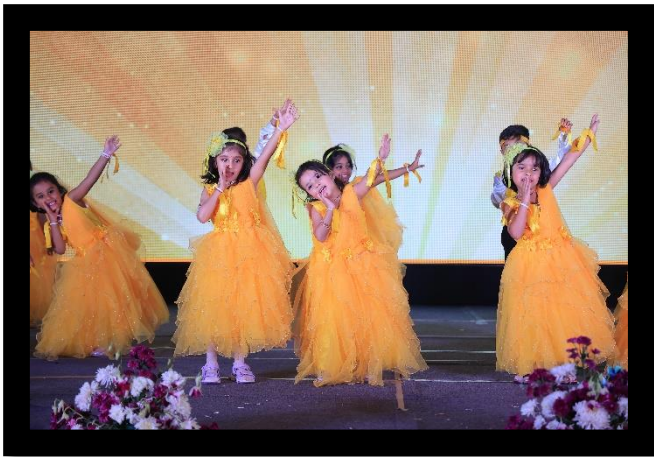

## INDEPENDENCE

## RAJYOTSAVA DAY

# ANNUAL DAY PRE-PRIMARY 2024-25

# UKG GRADUATION DAY 2024-25

## ANNUAL SPORTS DAY

Sports are an integral part of life. The importance of physical fitness and sports in the overall development of children is emphasized through structured play, which helps develop the motor skills and coordination through daily sports activities and physical education. Sports teach discipline, focus, dedication, hard work, commitment and teamwork. They instill values that help students navigate life with honesty and a sense of responsibility for themselves and others. It allows students to be agile and fit.

## FIELD TRIPS

Field trips, specifically to Big Barn and Enchanting Acres, provided hands-on and experiential learning opportunities.

## LOGIQUIDS External Exams

**Logical Reasoning:** LOGIQUIDS is a Mental Aptitude Olympiad for children. It enhances the logical reasoning skills in children in a structured way. Logical reasoning is a very important skill-set which is taught in school. We encourage children to participate in LOGIQUIDS Mental Aptitude Olympiad. These skills aim to foster overall development, self-confidence, and readiness for future learning and progress of the school.

**Dear Parents,**

We wish to thank you for your unwavering support throughout this academic year. Your trust and encouragement mean a lot to us. We remain committed to providing a strong and meaningful education for your children. It has been a wonderful session for everyone. As the vacation begins, we are sharing a few tips to make it interesting and enjoyable. These activities will help prepare the children to face the academic challenges of the upcoming year.

During the vacation, keep the children engaged in different activities.

- **SUMMER CAMPS:**

Summer camp is a community where children come together to have fun while learning lifelong lessons. Summer camp promotes positive social interactions, often around a common interest such as sports, performing arts, music, art & crafts. They provide a healthy, more active outlet for children away from television screens, cell phones and video games during the summer break.

- **DAILY CHORES:**

Ask children to share what they have learnt and find ways to extend that learning. This can be as simple as finding books at the library to explore a topic more deeply or playing a game like 'Sorry'. Get your child involved in household chores - doing them together helps develop responsibility and life skills.

- **Read along sessions:** Read bedtime stories with them daily.

- **Sleep:** We would like to talk a little about your child's sleep patterns and his/her food habits. Children should get enough sleep as it allows their little bodies to grow and stay healthy. Their muscles, including the heart, repairs during sleep.
- **Eat Healthy:** Encourage children to eat healthy home cooked food. Be a positive influence on your child. Eat together at least once in a day and talk around the dining table to make great family bonding.

Together we make a Team! We are looking forward to a great and meaningful partnership in the years to come.

**REACH OUT! REACH HIGH! REACH BEYOND!**

Best Wishes  
Dr. Reetu Thapa
